LEARN MORE

We are dedicated to our promise to work with you and offer more options that foster continual learning, and give you confidence that you possess the knowledge, skills and attitudes essential for treating patients in a continuously changing world.

To learn more about the assessment enhancements, visit abim.org/checkin.

¹ Only IM and Nephrology were available in 2018 with more specialties to roll out in 2019 and 2020. To view our rollout schedule, visit abim.org/rollout.

² Initially, the Knowledge Check-in will contain questions covering the breadth of the discipline; however, ABIM is continuing to explore focusing assessments on a subset of knowledge relevant to specific practice types.
